

National Severe Weather Warning Service

Chief Forecasters Assessment

An area of low pressure will move north from the Bay of Biscay to bring a spell of wet and windy weather to the more southern parts of England and Wales during Sunday. Rainfall totals of 15-30 mm are likely fairly widely with as much as 50 mm for some hillier areas of southwest England exposed to the strong easterly wind. Gusts of 50 mph are likely along parts of the English Channel coast.

The Met Office have issued a **Yellow Warning of Rain**

Valid from **09:00 on Sun, 23rd Sep 2012** until **23:59 on Sun, 23rd Sep 2012**

Wet and windy weather is expected to move north into some southern areas of England and Wales during Sunday. The public should be aware that heavy rain may cause localised flooding, particularly during the afternoon and evening.
